Summary

Labotek GB Limited ('The Company') accepts responsibility for the harmful effects its operations have on both the local and global environment and is committed to reducing them.

The Company will measure its impact on the environment and set targets for ongoing improvement.

The Company will comply with all relevant environmental legislation.

The Company will implement a training program for its staff to raise awareness of environmental issues and enlist their support in improving the Company's performance.

The Company will encourage the adoption of similar principles by its suppliers.

As part of the plastics industry, we have a responsibility to help develop more efficient solutions for recycling.

Besides thinking CO2 reduction, power consumption and heat recovery into our products wherever possible, we also support **Operation Clean Sweep**.

Objectives:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection and use of its fleet and the source of its power requirement.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Source and promote a product range to minimise the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the Company.
- Use an accredited program to offset the greenhouse gas emissions generated by our activities.
- Work with services, external partners and supply markets to show leadership, improve standards & practices and enable investments which support environmental sustainability.
- Promote local service delivery, reduce road miles and help the supply chain achieve net-zero carbon.
- Ensure our services are resilient to extreme weather and are adapting to the changing climate.
- Set an example in the industry by continually improving our environmental performance.

In recognition of the fact that the company has committed
to working towards achieving the targets to prevent
Resin pellet and powder loss set out in the
Operation Clean Sweep guidance

Labotek
GB Limited

Helping the plastics industry
reduce the loss of pellets
and powders to the environment

Staff responsibilities:

To read, understand and comply with this Policy.

To adhere to the training materials concerning our environmental responsibilities.

Minimise the need to commute and travel for business by working flexibly and embracing technology to meet business needs.

Help our customers to minimise the environmental impact of necessary business travel by providing support to use active, shared and low-carbon, clean transport – including multi delivery drops where possible.

Ensure waste is disposed of safely and legally.

Avoid waste and encourage the conservation, reuse and recycling of resources.

Take action to prevent pollution to land, air and water which may occur as a result of our operations.
